FINISHING & INSPECTION OPERATORS

Based in Wrexham, Fibrax are specialists in Polymer Injection Moulding, mainly working in thermosets (rubber) for the automotive industry. Due to expansion of the business, we now have a number of vacancies for Finishing and Inspection Operators.

Key tasks for the role include:

- Removing flash from moulded components in accordance with published work instructions
- Performing light assembly operations as required by the manufacturing process in accordance with published work instructions
- To visually inspect components to the standard specified by published work instructions
- Reporting excessive or unusual defects noted during manufacturing or inspection operations
- Assisting with initiatives to improve quality, efficiency or working conditions when required including gathering process data and /or participating as a team member in specific initiatives

Essential Skills:

- The ability to learn and understand the process
- A high standard of quality and a strong eye for detail
- A good understanding of written and spoken English
- The ability to work well individually and as part of a team

The ideal candidate will also have:

- Have prior experience of a manufacturing environment
- Have prior experience of working under quality systems such as ISO9001, TS16949 or similar
- Have a genuine desire to improve and progress both themselves and the process

In return the role offers a competitive salary, shift allowance and benefits package.

The closing date for applications is 28th February 2018

Please apply in writing or via email, enclosing your C.V. to;

Mrs Lyndsey George
