PRESS SHOP QUALITY AUDITOR x 1C SHIFT

A vacancy has arisen within the company for the role of Quality Auditor working within the moulding press shop.

Reporting to the Quality Manager, the Quality Auditor is responsible for ensuring that Fibrax products conform to manufacturing specifications. In practice, this means the periodic inspection of all manufactured components with measurement and analysis of key characteristics where specified.

Excellent organisational skills and self-motivation are essential in this role. The successful applicant will be required to plan their own work and show initiative in responding to issues highlighted by the audit process.

The Quality Engineer will be required to measure and report on various aspects of Fibrax products, including dimensional conformance and ability to meet performance requirements. Please see the full job description for more details.

The ideal candidate will have:

- Good organisational skills and self-motivation.
- A keen interest in the role with the ability to take the initiative.
- The ability to work with minimum supervision after training.
- A high quality and efficient approach to the job.
- Good record keeping and a grasp of detail.
- Basic computer literacy.

In addition, experience of working in a quality assurance environment would be advantageous though full training will be given in all aspects of the role.

In return, the role provides a competitive rate of pay and benefits package with full training in the requirements of the role with the potential for further training in related areas for the right candidate.

**The closing date for applications is Friday 16h
February 2018, applications from all internal
departments are welcome.**

Please apply in writing, enclosing your C.V. to;

Mrs Lyndsey George
