

PRODUCTION OPERATOR

Fibrax Ltd.
Queensway
Wrexham
LL13 8YR
United Kingdom

At its highest grade, the role offers a rate of £9.50/hour plus shift allowance (annually reviewed). Full training in the requirements of the role will be given. Also the opportunity for further professional training and for the right candidate, the possibility of further advancement within the company.

Key tasks for the role include:

- Setting up, operating and shutting down a production approved rubber moulding process (after tooling is installed).
- Where expected cycle times and/or defect levels cannot be achieved, assessing available information to determine possible special causes and where practicable, resolving them.
- Working with other members of the production department to form an effective production team.
- Communicating with the shift management team to ensure issues beyond the scope of available settings and method are resolved promptly.
- Maintaining the work area in accordance with 5S principles.
- Assisting in improvement initiatives in all areas of the company as part of cross-functional teams.
- Other work (not related to machine operation but required by the undertakings of the company) as required from time to time.

Essential Skills:

- The ability to learn and understand the production process.
- Good spoken and written English.
- Reasonable mathematical skills.
- The ability to work well as part of a team.

The ideal candidate will also have:

- Have prior experience of injection moulding.
- Have prior experience of working under quality systems such as
- ISO9001, TS16949 or similar.
- Have a desire to improve both themselves and their processes.
- Be able to lead a small team to assist with continuous improvement.

In return, the role offers a competitive salary (dependent on experience and qualifications) and usual benefits.

Closing date: 28th February 2018

Please apply in writing, enclosing your C.V. to:

Paul Davies, Production Manager.
