TOOL CHANGER/SETTER

Working a two-shift system (8 hours mornings/afternoons), changing tooling on rubber and plastic moulding machines. Installation of rubber and plastics mould tools.

Salary rate of **£10.50 - £12.50/hour** depending on experience and qualifications.

Key tasks for the role include:

- Preparation of moulding tools prior to installation, including cleaning & date coding.
- Working with members of the production department to form an effective team.
- Liaising with the tool room to schedule repairs to damaged tooling.
- Setting of moulding presses after tooling installation where required.
- Maintaining the Tool changers' work area in accordance with 5S principles.

Training in the requirements of this role can be provided and, for the right candidate, the possibility of further advancement within the company.

**The closing date for applications is
Friday 30th March 2018.**

Please apply in writing, enclosing your C.V. to;

Kevin Rimmer
Manufacturing Director
